We are concerned for the environment, product safety, occupational health and security. Thus, keeping the use of resources at the optimum level and supporting environmental recycling.

Production Area

Our standard and priority is the non-maleficence of our products towards nature. We are a close friend to environment, by keeping it sustainable With a total of 15.200 m² area factory.

First Class Technology

A quality product requires quality materials and quality labor. We integrate advanced manufacturing technology with our modern business approach.

Fast Delivery

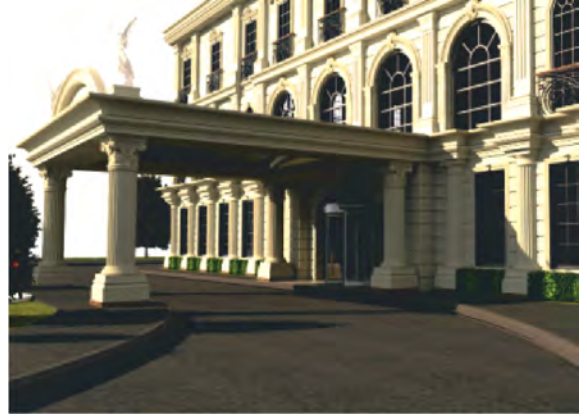

With the recognition of the urgency of your requests, we meticulously ensure that your orders are delivered to you on time.

We Export To The World

We work with many different continents and countries.

INTERIOR & EXTERIOR DECORATION PRODUCTS

What is Polyurethane?

Polyurethane is a unique synthetic polymer material with unlimited capacity. It was first produced in Germany in 1937 by Bayer Georg Wilhelm. It started its industrial production in Germany in 1944 and in USA in 1957. High physical and chemical properties and fluidity are the main characteristics of polyurethane. Thanks to these features, polyurethane can be used in most areas of the industry and in modern daily life.

Product Features

-  Lightness and Durability
-  Fire Resistance
-  Sound Insulation
-  Moisture and Waterproof

Product Advantages

-  Paintable
-  Easily Assembling
-  Aesthetic Appearance
-  Cleanliness and Maintenance
